Superior Liners

GROWING BETTER ROOTS SINCE 1918

This list offers you the BEST VALUE in quality plants—with the best root system—for better results.
Long ago, we gave up grafting. Our plants are on their OWN—not on borrowed ROOTS.

Our proprietary "Chemurgic" processes and Mechanical Innovations produce BETTER ROOTS and STURDY TOPS.
We are strictly wholesale growers.

"A NURSEYMAN'S NURSERY."

SECT. I. contains our offering of Liners for bedding out, also potted liners for row planting. Seek our advice on Lining out Rhododendrons. We offer 40 years of experience in this field. We annually produce 100,000 cutting grown Rhododendron Named Hybrids in over 200 Varieties, also our own crosses of Choicest Rhododendron Seedlings.

SECT. II. offers field grown plants for retail sales, also bedded plants for setting in rows and counter-trade.

Due to popular demand for larger stock—we have lined out 75,000 Rhododendron Named Hybrids—in addition to a large assortment of other choice plants—over the last 4 years—many of which are offered herein.

Light—but safe—yet reasonable packing, enable us to ship NATION-WIDE.

Door-to-door, enclosed truck delivery can be arranged—at low rates.

A one price policy is maintained—but, large orders earn QUANTITY DISCOUNT.

This list is our only representative. Since we have no agents or salesmen, we deal "directly and correctly" with our customers.

On substantial orders: PHONE "Person to Person—for VAN" EDgewood 4-1100. Phone charge will be credited to your account.

Visit us when nearby—it's worthwhile . . . no obligation.

Order early to assure choice of varieties.

Your valued orders will have our prompt attention.

SECTION I

Lining-Out Stock

KEY:

BR—Base Root
C—Cutting

Rhododendron

NAMED HYBRIDS

Hardy — Strong — Own Root — Transplants

Our Rhododendron Liners, being "cutting grown," are **not** on borrowed tender roots; have **no** graft or union weakness and are **not** subject to understock suckering or disease.

We carefully select our cuttings from choice, healthy, vigorous, blooming named hybrids.

On their "own roots," our transplants are True-to-Name to the "tips" of their vigorous, healthy roots.

We produce **100,000 cutting grown Rhododendrons**, yearly in over 75 listed varieties and are hybridizing and testing many outstanding novelties.

Our Rhododendrons will develop MORE rapidly into strong, well branched, bushy, heavily budded stock—a welcome asset for the discriminating nurseryman.

This is a **PROFIT ITEM**—proven by more increased, repeat orders—each year—from steady, satisfied customers.

Select **TODAY!!** from this list of interesting, choice named Hybrids.

Ready **MAY 1st**—with vigorous tops and heavy, superbly rooted peat ball. . . . **THE FOLLOWING:**

RHODODENDRON—M

Hardy :: Strong :: Own Root

ROSEUM PINK. A select form of Roseum Elegans, having the same good plant habit with large trusses of clear pink flowers.

ROSEUM SUPERBUM. Clear, soft pink; late bloomer.

SAPHO. White with maroon blotch.

VAN der BROCK. Aniline red; vigorous grower.

RHODODENDRONS

90c Each at 100 Rate.

Each variety sold in multiples of 20 only and 20 at 100 rate. 1000 rate does not apply.

AMERICA. Considered the best hardy red today; spreading habit.

ATROSANGUINEA. Ironclad Red; good foliage and plant habit.

BLACK BEAUTY. Very dark maroon flowers.

BLUE PETER. Lavender-blue with dark blotch.

BOULE de NEIGE. Dwarf, compact; early white.

CATAWBIENSE ALBUM. Proven the best all-around hardy white.

DR. DRESSELHUY. Upright grower, crowned with aniline red flowers in tall trusses.

DR. RUTGERS. Top-rate recent introduction. Broad, dense plant with red flowers.

DUKE OF YORK. Clear, intense pink; dark throat.

EDWARD S. RAND. Distinctive foliage; good hardy red.

EVERESTIANUM. Wonderful plant, graced with lovely frilled flowers; pure lavender.

FLUSHING. Very hardy red Catawbiense hybrid.

GEN. GRANT. Very hardy red.

GOETHE. Dense, compact plant; large trusses of lavender flowers.

GOMER WATERER. One of the largest white flowering Rhodos.

H. H. HUNNEWELL. Carmine-red; very hardy.

H. W. SARGENT. Very large, deep crimson red flowers.

CONICAL KATE. Beautiful red with prominent golden throat.

KETTLEDUM. Good, old, hardy red; spreading habit.

LADY ARMSTRONG. Rose-pink with white throat; very hardy.

LADY CLERMONT. Light red with deep crimson blotch.

LADY EL. CATHCART. Clear pink; spotted.

LADY GREY EGERTON. Immense trusses; delicate lavender.

LEE'S DARK PURPLE. Large, purple trusses backed by dark wavy foliage.

LORD ARMSTRONG. Darker than Lady Armstrong with white anthers.

LORD ROBERTS. Deep red with dark crimson pattern.

MAD de BRUIN. Brilliant red; interesting way foliage.

MAD. MASSON. Tall white trusses with a prominent golden-yellow eye.

MC INTOSH. Aniline red; vigorous grower.

MEADOWBROOK. Cheerful deep pink—fimbriated flowers.

MME. CARVALHO. Very large flowering white.

MRS. P. D. WILLIAMS. White with Brown eye.

MRS. P. den OUDEN. Dense, compact; smothered with aniline red flowers.

MRS. R. S. HOLFORD. Large trusses of salmon-red.

PROF. BETTEX. Brilliant red; good foliage.

PURPLE SPLENDOR. Lovely pansy-purple with deeper throat blotch.

ROSLYN. Lovely trusses of lavender-blue with white stamens.

SCIPIO. Red with crimson blotch.

SEFTON. The darkest colored Rhododendrons; deep maroon.

THE QUEEN. White flowers with a yellow throat blotch.

VAN WEERDEN-POELMANN. An aniline red variety with interesting wavy foliage.

FIELD GROWN RHODODENDRON NAMED HYBS. — See SECTION II.

ON-Named Hybrids Own Root :: Transplants

RHODODENDRONS \$1.25 Each at 100 Rate

Each variety sold in multiples of 20 only and 20 at 100 rate. 1000 rate does not apply.

DEXTER-ORCHID. Fool proof hybrid, with large orchid trusses.
DEXTER-PINK. Delicate shade of soft pink; very hardy.
DEXTER-PURPLE. Soft purple; good plant habit.
LEE'S BEST PURPLE. Deep Purple. Excellent plant habit.
NOVA ZEMBLA. Bright red, good plant habit.

FOR EQUITABLE DISTRIBUTION OF ALL THE ABOVE RHODODENDRONS, REDS ARE LIMITED TO 40% OF TOTAL RHODODENDRON ORDER.

FIELD GROWN RHODODENDRON NAMED HYBS. — See SECTION II

RHODODENDRONS Small-leaved (Dwarf) Varieties 4 - 6" TF 40c Each at 100 Rate

Each variety sold in multiples of 20 only and 20 at 100 rate. 1000 rate does not apply.

KEISKEI. Small foliage, dwarf species with yellow flowers.
MYRTIFOLIUM. Dwarf pink, short-pointed leaves; good for low plantings.

WILSON. Excellent, compact plant habit—ideal for rock gardens or foundation planting; flowers pink.

The following small-leaved varieties are available in selected transplanted seedlings:

*R. CAROLINA *R. KEISKEI *R. RACEMOSUM

DEXTER HYBRIDS Own Root (Cutting Grown) Transplants

We have tested over a hundred plants which were chosen as the best out of thousands of the so-called "Dexter Hybrids" planted along the Eastern Seaboard. The following were selected for their outstanding flowering, foliage and plant habit. \$2.00 EACH (only 5 of a variety per customer); \$2.50 EACH for less than 5 of a kind.
AMETHYST. Huge frilled lavender flowers over four inches across. Vigorous plant habit; never fails to bloom.

BROOKVILLE. Charming large pink. Similar to Wheatley, blooming 10 days later.

MRS. WM. R. COE. Deep, brilliant pink with crimson throat. Immense trusses with flowers over four inches across. Lovely, glossy, dark green foliage.

SCINTILLATION. Large trusses of luminous pink flowers of exceptional substance. Dark green, handsome foliage. Ideal plant habit. One of the hardest of the Dexter class.

WESTBURY. A lively pink flowering selection with golden sparkle in throat. Very floriferous; compact plant habit.

WHEATLEY. Upstanding trusses of delicate pink flowers. Exceptional foliage and plant habit. Holds color well in open situation.

FOR EQUITABLE DISTRIBUTION, THE "DEXTER HYBRIDS" ARE LIMITED TO 25% OF TOTAL RHODODENDRON ORDER.

*RHODODENDRON HYBRID SEEDLINGS

We offer plants grown only from hand-pollinated seeds. After many years of experience in growing hybrid seedlings, we have found it a waste of time to grow plants which were produced from open (uncontrolled) pollinated seeds.

Heavy Seedlings — Transplants — 1 Yr. TF (\$)

Order in Multiples of 50 — 50 at 100 rate; 250 one variety at 1000 rate.

*RHODODENDRON CATAWBIENSE NAMED HYBRID CROSSES

25c Each at 100 Rate. (22c Each at 1000 Rate).

ATROSANGUINEA X AMERICA. The results of this cross show a better plant habit than either of its parents.

CHAS. DICKENS X ATROSANGUINEA. Both parents are recognized for hardiness and considered reliable red varieties.

CHAS. DICKENS X KETTLEDUM. Another good cross to produce very hardy red hybrids.

GLASS-WHITE. Our native hardy white.

KETTLEDUM X AMERICA. This cross should produce very interesting red flowering plants.

KETTLEDUM X CHOCOLATE SOLDIER. For darker shades of crimson. The male plant is a very deep maroon.

*RHODODENDRON DEXTER (FORTUNAE) AND SPECIAL CROSSES

30c Each at 100 Rate (25c Each at 1000 Rate)

BOULE de NEIGE X CROCEUM. Dwarf, compact, early white crossed with a yellow flowering species.

DEXTER-RED X DEXTER-RED (FRILED). Both parents are brilliant red varieties. Good possibilities for frilled flowers.

HELEN EVERITT X CATANEA. Pure white prize winner crossed with a selected form of Glass White Catawbiense.

SCINTILLATION X AMERICA. This cross may produce more intense shades of pink.

SCINTILLATION X PARKER PINK. One of the hardest combinations in the best outstanding Dexter varieties.

SCINTILLATION X WHEATLEY. Two of the best pink Dexters. Plant habit—trusses and flowers—excellent.

WHEATLEY X MRS. WM. R. COE. The male parent produces deep pink flowers over four inches across with a dark throat blotch.

*RHODODENDRON SPECIES

The following plants are grown from seed collected from the best type of each true species.

20c Each at 100 Rate. (18c Each at 1000 Rate).

CAROLINA. Seed selected from an outstanding pink type, having excellent plant habit.

KEISKEI. Small foliage dwarf species with yellow flowers. Seeds from best, hardy clones.

RACEMOSUM. An excellent dwarf pink flowering species, ideal for rock-gardens and low foundation plantings.

RHODODENDRON
Named Hybrids

(OWN ROOT)

FIELD GROWN — NOT SHADED

(Flower Buds — 3 or more — ADD 20% to List Price.)

Many nurserymen are not equipped or inclined to bed out small liners from greenhouses. Upon popular demand we have bedded some of our excellent, OWN ROOT Rhododendron — True to Name — Hybrids.

THESE PLANTS were grown with special care and expert supervision. — are free of insect and disease damage — are strong, well branched, bushy stock with ample root supply — are on OWN ROOTS — no suckering or weakness resulting from grafting. THESE PLANTS can be used for landscape or sales to home owners. Can be planted in 3 ft. rows, 2 ft. apart assuring a nice supply of saleable Rhododendron Named Hybrids.

WE OFFER THE FOLLOWING: Balled & Burlaped
